* The Security Code is a feature for credit card security. It appears on the back of most Visa and MasterCards, and on the front of American Express cards. The security code helps validate that the account is legitimate.

Visa and MasterCard: Flip your card over and look at the signature box. You should see either the entire 16-digit credit card number or just the last four digits followed by a special 3-digit code. This 3-digit code is your Card Security Code (CSC) or Card Verification Code (CVC).

American Express: Look for the 4-digit code printed on the front of your card, just above and to the right of your main credit card number. This 4-digit code is your Card Security Code.
